Crediting Rates and Operational Costs

2025–26

Crediting Rates for Funds held in Court 2025–26

Pursuant to sections 113(14) and (15) of the *Supreme Court Act 1986* (the Act) the Senior Master, with the approval of the Chief Justice, declared the following crediting rates for funds held in Court on 31 May 2026 and for funds paid out of Court from 1 June 2026 to 30 May 2027:

Common Fund No. 1 (CF-1)	0.05% <i>per annum</i>
- interim rate	0.05% <i>per annum</i>
Common Fund No. 2 (CF-2)	
- for clients with funds invested in both CF-2 and Common Fund No. 3 (CF-3) as at 1 June 2025	3.00% <i>per annum</i>
- for other clients with funds invested in CF-2 only	3.20% <i>per annum</i>
- interim rate	2.45%

Note: Funds paid into CF-1 represent "non-award" funds. Funds paid into CF-2 represent funds held on behalf of people under a legal disability.

Separate Crediting Rates Declared for CF-2

The Act permits no means for recovery of the operational costs of CF-3. As no cost recovery from the returns of CF-3 is possible, separate crediting rates are fixed by the Senior Master in respect of CF-2.

Fixing different rates is possible, with the approval of the Chief Justice, pursuant to section 113(15) of the Act.

Office Administration Expenses

Section 113(18) of the Act allows the Senior Master to pay from the Common Funds' Guarantee and Reserve Account (G&R) the administration expenses of the Office. G&R is also intended to serve as a prudential safeguard for the investments of the Common Funds.

G&R is applied to meet all administration expenses¹, including the salaries and on-costs of all staff employed in the Office. During the financial year 1 July 2025 to 30 June 2026, those expenses totalled approximately \$15.86 million. The income which G&R produced met approximately one-sixth of this cost. The bulk of the balance was made up by fixing crediting rates in respect of CF-2, pursuant to sections 113(14) and (15) of the Act, which are slightly less than the income produced by the investments of the Common Fund.

The income produced by CF-2 investments during the 2025–26 financial year meant that a gross rate of approximately 4.05% could have been paid. The following table summarises cost recovery conducted over the last five years.

¹ Not including depreciation. See also note 2 below.

	Year Ended 30 June 2022	Year Ended 30 June 2023	Year Ended 30 June 2024	Year Ended 30 June 2025	Year Ended 30 June 2026
Actual office operational expenses	\$12.96M	\$13.60M	\$14.4M	\$15.78M	\$15.86M
Gross CF-2 income rate (%p.a.)	2.84%	3.15%	3.56%	3.71%	4.05%
Amount of income transferred from CF-2 to G&R	CF-2 only: 1.19%	CF-2 only: 0.90%	CF-2 only: 1.01%	CF-2 only: 0.96%	CF-2 only: 0.85%
	CF-2 & CF-3: 1.39%	CF-2 & CF-3: 1.10%	CF-2 & CF-3: 1.21%	CF-2 & CF-3: 1.16%	CF-2 & CF-3: 1.05%
CF-2 crediting rate (%p.a.)					
- CF-2 only	1.65%	2.25%	2.55%	2.75%	3.20%
- CF-2 & CF-3	1.45%	2.05%	2.35%	2.55%	3.00%

Administration Expense Ratio

The above figures only show the amount of income transferred from CF-2 to G&R to cover Funds in Court's (FIC) operating expenses.

The figure used by FIC to indicate the total cost of administering client's funds is called the Administration Expense Ratio (AER). The AER is defined² as being:

$$\frac{\text{total operating expenditure, excluding depreciation, for the financial year}}{\text{total financial assets, including property, at the end of the financial year}}$$

The FIC AER for the last five financial years is as follows.

Financial Year	AER
2021–22	0.62%
2022–23	0.64%
2023–24	0.64%
2024–25	0.65%
2025–26	0.65%

² Following a query from the FIC Audit Committee, independent actuarial advice was sought to investigate whether period depreciation should be included in the calculation of the annual AER. Although it became evident that there was no standard definition of expense ratios, the actuary and FIC's internal auditors agreed that the AER be calculated without the inclusion of period depreciation charges in the G&R administration expenses and applied against the total net assets. The calculation was applied to all published past administration expenses and AERs for consistency and comparison.
