Common Fund No. 3

Quarterly Information Sheet – 31 December 2025

Fund Overview

Common Fund No. 3 [CF-3] provides clients with the potential to achieve capital growth over the long term. The Fund invests in a portfolio of publicly listed Australian shares, whilst a small percentage of the Fund is also invested in cash, all held in the name of the Senior Master.

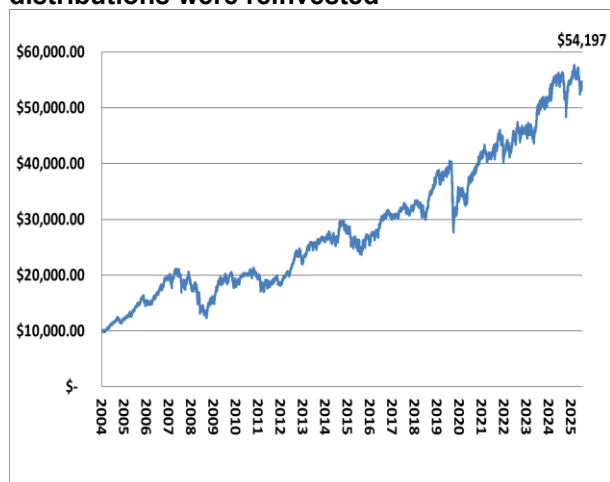

CF-3 operates as a unit trust structure. This means that each client's investment in CF-3 is determined via the issue of a number of "units" in the Fund, rather than directly owning individual shares. The "unit holding" and the "unit price", (which reflects the value of the underlying shares in the portfolio), is used to calculate the value of each client's investment in CF-3.

Due to the volatile nature of the share market the "unit price" may rise or fall on a daily basis.

Investment Approach

CF-3 is actively managed relative to the benchmark but with low portfolio turnover. The Fund primarily invests in large capitalisation shares (commonly referred to as "blue chip" shares) across a range of industry sectors. The Senior Master is responsible for all investment decisions.
